To Whom it May Concern:

Case # SCU15-02 / Christopher Bucceri

My mother and fathers residence (1511 Nichols road) received a letter about this case. They are unable to attend due to them being away for the day. Even though I do not live there I do have a complaint about this case. I am a deer hunter. For the past two years no matter what time of day I go out to the woods behind my parents' house all I hear are dogs barking at all hours. There would be days I could hear four to at least six different animals barking. It echo's in the woods. It's amazing that when I am in my parents' driveway (by Beecher road) I can hear these dogs. I feel for anyone that lives closer to this individual's house because all that noise would drive me nuts.

If you have any questions feel free to contact me.
